

The earthworm has crawled out to my garden of the rainy season. One heads for the south and one westers. On earth where does the earthworm crawl in the aim The earthworm is indispensable food for fishing apart from it. It is me troublesome for the earthworm at many years because I like fishing when it is young and enthuse about the crucian carp fishing and the catfish fishing especially. The earthworm in the rainy season must have the product. By the way it began to think the teacher of the doctor who called Yamaguchi honored the next had broadcast the radio of the earthworm the other day. There is certainly a special efficacy in the cold according to this teacher s theory when the earthworm is infused and the soup is drunk. It is said that there are certainly efficacy eyes in the cold though it understands whether to become a medicine. Japan of the earthworm that produces in the Kaga country is abundant in medicines though are earthworms of variety. Moreover the earthworm becomes for food and is very delicious. The country that assumed the treat valuing the earthworm highly all over the world was a native in New Zealand many kinds lived here the earthworm that called among those was fairly delicious and this was broadcast when it was supposed to eat excluding the chief. The earthworm discovered and Doctor of Medicine named this Yamaguchi did not discover the special efficacy to be as heat in the under medicine. There is a custom of writing the book entitled Doctor of Science s Miyake is Angel s writing of the earthworm in the average as a result of the research that it discovered efficacy to be as heat in the under medicine the infusion of the earthworm in our country as heat in the under medicine for a long time here and there and drinking in the past. Moreover there is a legend of swelling when urination is put on the earthworm in state on my hometown though the earthworm understands various heat and has written that profit and are cured urination in the medical book of. Moreover it is handed down that it is a medicine of the bed-wetting. The earthworm was named in this grass main points. Japan and have the custom of beginning squeeze the mud from the average of earthworm s belly putting this in sake and drinking. What taste it is is not understood without having drunk the earthworm sake because I need not often have the voice yet though it is said that it is because it often has the voice if this is drunk. The earthworm said one excellent song woman to this grass main points and the fantastic idea of earthworm sake might have arisen by the legend of often having the voice if this was drunk from a certain length singing point under the soil at which it barked. However the length singing reason became it not was according to a recent research because the sound organ was not in earthworm s body.
